

# Smarter Drafter + NetDocuments

Integration Overview

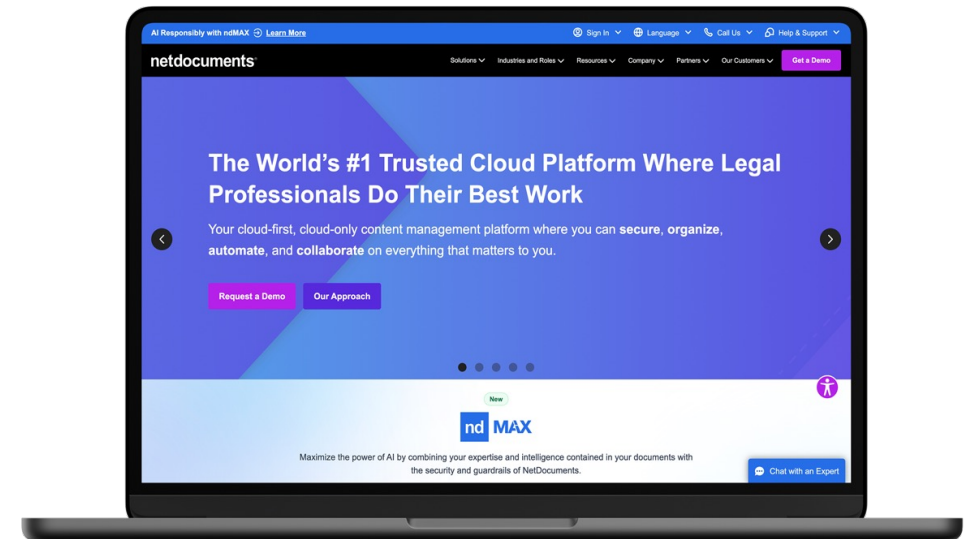

MAR24

Smarter Drafter is automating Australian law firms – from Instruction to Intake. With Smarter Drafter you can produce beautifully formatted client-facing, court room ready documents that are as easy to read as they are compliant.

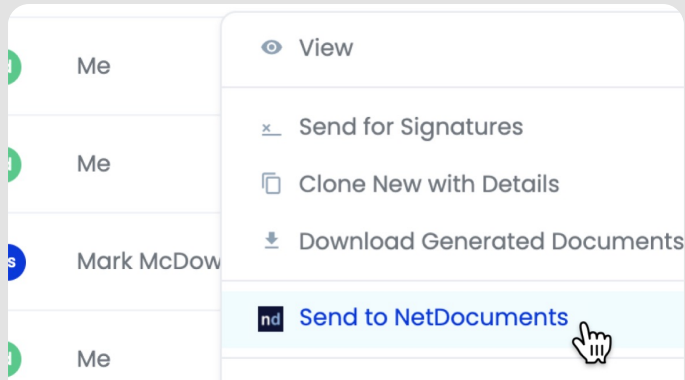

NetDocuments is a secure solution for intelligent and confidential document and email management.

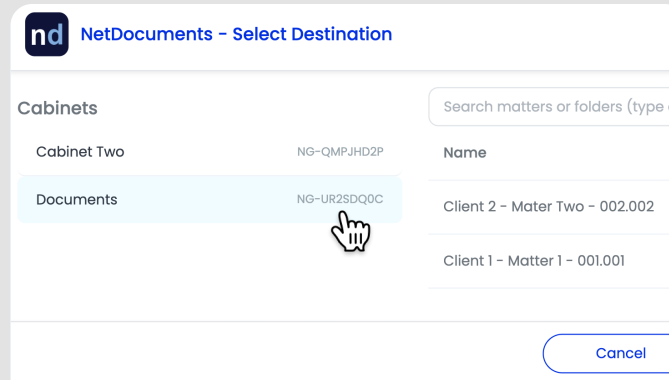

# Send Documents to NetDocuments

Smarter Drafter and NetDocuments integrate seamlessly so that your documents are all kept in one place, saving you time and keeping things simple.

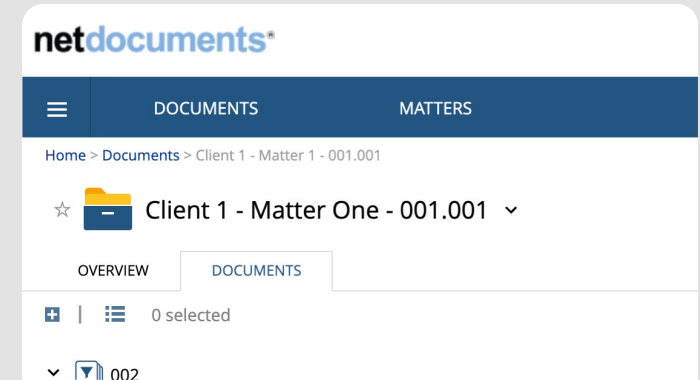

**One-click send**

Documents generated in Smarter Drafter can be saved directly to a matter folder in NetDocuments.

**Choose your matter**

Choose your matter by either typing the first 3 characters of its name or by choosing it from the list.

**Everything in one place**

Keep all your documents in one place to avoid double-handling and maintain the integrity of your documents.
